

## Boneo Water Recycling Plant

### Final Project Update March 2025

We're pleased to advise the Emergency Storage Lagoon (ESL) Upgrade construction has finished and now all major upgrade works at our Boneo Water Recycling Plant (WRP) have been completed. We'd like to thank you for your continued patience throughout the works.

John Holland SUEZ Beca (JHSB) joint venture will continue to operate and maintain the WRP. We'll still keep you updated on important news from the WRP and any ad hoc maintenance works that might impact you. In the future as the WRP operates and population continues to grow, we'll monitor our assets and upgrade them as required. We don't expect this to happen any time soon.

### Emergency Storage Lagoon (ESL) Upgrade

We finished the ESL Upgrade on time just before the Christmas and New Year break with no major issues during construction. Our team are finishing off final checks on the upgraded ESL and pump station, and we might need to undertake some finishing touches. We'll let you know if this will impact you, but we don't expect any major disruptions.

We've been busy completing the major upgrade over the last 7 years and thank you for your patience.

See photos from the ESL works at the end of this update.

### Need to get in touch?

This will be the final community project update as all major upgrade works are complete. We'll still keep you updated on important news from the WRP and any ad hoc maintenance works that might impact you.

We're here to help, so here's how to reach our team:

#### **Plant Operations - Peter Segura (JHSB)**

Phone: 0456 931 065

Email: [peter.segura@suez.com](mailto:peter.segura@suez.com)

#### **South East Water**

Phone: 13 28 12 (Faults and Emergencies)

Email: [boneo@sew.com.au](mailto:boneo@sew.com.au)

All community updates are available on South East Water's Boneo WRP website at [www.southeastwater.com.au/boneo](http://www.southeastwater.com.au/boneo)
